DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 7-12, drawn to a method of treating estrogen-deficient related complaints in female patients comprising administering a steroidal compound such as tibolone, exemestane, and formestane.

Group II, claim(s) 7 (in part), 8-10, 13 (in part), drawn to a method of treating estrogen-deficient related complaints in female patients comprising administering aminogluthethimide.

Group III, claim(s) 7 (in part), 8-10, 13 (in part), drawn to a method of treating estrogen-deficient related complaints in female patients comprising administering anastrozole.

Group IV, claim(s) 7 (in part), 8-10, 13 (in part), drawn to a method of treating estrogen-deficient related complaints in female patients comprising administering letrozole.

The inventions listed as Groups I, II, III, IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Groups I, II, III, IV lack unity because they do not share a common technical feature. Aromatase inhibitors, such as tibolone, aminogluthethimide, anastrozole, letrozole, exemestane, and formestane, are well known in the art. They have been disclosed in the following patents: US Patent 5,037,817; WO 98/47517; US Patent

Art Unit: 1617

4,668,689; US Patent 5,770,603; US Patent 5,744,460. Because of these reasons, restriction for examination purpose as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

A telephone call to the attorney is not required where: 1) the restriction requirement is complex, 2) the application is being prosecuted pro se, or 3) the examiner knows from past experience that a telephone election will not be made (MPEP § 812.01). Therefore, since this restriction requirement is considered complex, a call to the attorney for telephone election was not made.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yong S. Chong whose telephone number is (571)-272-8513. The examiner can normally be reached on M-F, 9-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, SREENI PADMANABHAN can be reached on (571)-272-0629. The fax
